Hi Brian -

We have labeled the Tweet and are taking steps to limit trending on this.

On Tue, Dec 1, 2020 at 4:40 PM Scully, Brian [REDACTED]@cisa.dhs.gov> wrote:

Hey [REDACTED] and [REDACTED]

Hope you both had a restful Thanksgiving weekend. Please see the below report from GA.

Regards,

Brian

Watch a Dominion Representative at Gwinnett County Election Central, responsible for tabulating ballots and certifying results, download data to a USB from the Election Management Server, plug it into a laptop, manipulate the data, then palm the USB.

Good Afternoon

To clarify, the USB drive was not inserted into a scanner, the scanners are connected to server through cables. The images and video show a Dominion tech producing a data report on the server and saving the report to a Dominion USB thumb drive and then using a laptop to filter requested information. The Dominion servers are not equipped with Excel and counties are not authorized to install any hardware or software on these systems

Hi,

Unfortunately, I'm out of the office today. I've copied Kelvin William's, assistant elections supervisor, on this email. Earlier today he shared some information with our Communications Director that he can now share with you in order to help.

Thanks,  
Kristi

Hi Kristi,

The EI-ISAC, and our partners at the Election Integrity Partnership (EIP), are tracking a social media post that is gaining traction very quickly. It is likely a misunderstanding but is being portrayed on social media as some sort of nefarious act. If you can clarify for us what is being shown (if it even happened), we can work with the social media platforms to try and have the posts removed as misinformation. Please let us know as soon as possible.
